## About Us

Intellect Infra solutions are one of the best HVAC solution providers. We design, plan, execute and service HVAC projects. We are associated with the LG and Mitsubishi companies for air conditioner systems and VRF systems. Our team has more than 20 years technical knowledge in HVAC industry.

We provide excellent installation and servicing of VRF systems in a cost effective manner which meets client's requirements.

Our standard system designs are a starting point for developing Highly Effective and flexible customized layouts in sustainable manner to meet practically any requirement directed toward us.

## Vision

Deliver world class eco friendly HVAC solutions through Innovation & Engineering.

## Mission

- Achieve complete transparency in our processes.
- Seek growth through innovative solutions & eco friendly solutions.
- Ensure prompt and efficient pre & post sales services
- Maintain excellent & long term relationships with our clients
- Create and respect value for time and money.

## Products Expertise

- Comfort Air-conditioning
- Variable Refrigerant Flow Systems (VRF)
- Ducted Systems
- Clean Room Services
- Ventilation System

## Mitsubishi City Multi VRF Systems

Mitsubishi Electric is a world leader in air conditioning systems for residential, commercial and industrial use. Each product is an amazing feat in its own, delivering years of quiet operation, energy-efficient performance and minimum impact on the environment.

Mitsubishi Electric Inverter series are the perfect answer to today's cooling needs. Its Wide-angle outlets distribute air flow to all corners of the room, ensuring the room is sufficiently cooled. Horizontal airflow and a fan speed reduced by 20 percent compared to conventional models also contribute to increased comfort for occupants.

New Inverter Technology has made it possible for units to operate at outdoor-air temperatures as high as 52 C. Tropical Specification series units are perfect for cooling homes and offices in tropical regions.

Design | Plan | Execute | Service

## LG Multi VRF Systems

LG VRF solutions are among the most versatile and powerful air conditioners, offering a cost-effective system and an easier installation. LG VRF solutions provide a great experience for both indoor and outdoor units.

LG Cassette type indoor unit is equipped with the air purification function. It offers a solution to the problem of ultrafine dust that harms our bodies. This is the CAC\*-certified, high-performance product that delivers clean, cool air to your large space.

LG Concealed Duct is a concealed cooling and heating solution that provides optimal temperature control without affecting interior aesthetics. Using a spiral duct (embedded or flexible type) and stream chamber, it is possible to operate cooling and heating for several rooms simultaneously.
